

Options and Accessories - DC Series

Boost pump kit, (System DML-200/240/260) - [Contact Us For Pricing.](#)

If the high-pressure pump is installed less than 2 feet below the waterline or an additional 5 micron pre-filter is added, the installation of an optional boost pump is recommended. The boost pump also helps to prime the system after pre-filter changes and increases the lifetime of the pre-filter. Draws only 1 amp at 12 VDC (½ amp at 24 VDC).

Kit contains: 1 magnetic drive submersible boost pump (no seal / no leak - no corroding stainless shaft), 1 hydraulic / magnetic circuit breaker for control panel, AISI 316 stainless steel pump bracket, 5/8" intake hose barb, 1/2" custom outlet hose barb, 4 feet / 1.2 meter 5/8" wire reinforced intake (suction) hose, 10 feet / 3 meter 1/2" braided feed hose, 4 AISI 316 hose clamps.

Boost pump kit (Systems DML-430/780) - [Contact Us For Pricing.](#)

If the high-pressure pump is installed less than 2 feet below the waterline or an additional 5 micron pre-filter is added, the installation of an optional boost pump is recommended. The boost pump also helps to prime the system after pre-filter changes and increases the lifetime of the pre-filter. Draws only 3.5 amp at 12 VDC (1.8 amp at 24 VDC)

Kit contains: 1 Magnetic drive boost pump (no seal / no leak - no corroding stainless shaft), 1 hydraulic / magnetic circuit breaker for control panel, 5/8" intake hose barb, 5/8" outlet hose barb, 4 feet / 1.2 meter 5/8" wire reinforced intake (suction) hose, 10 feet / 3 meter 5/8" braided feed hose, 4 AISI 316 hose clamps.

5 Micron Pre-filter housing - Free of charge

The additional 5 micron pre-filter is only recommended in connection with the optional boost pump

1 Filter housing, 1 pre-filter cartridge, 1 bracket, 1 3/4" NPT nipple

Low pressure gauge - [Contact Us For Pricing.](#)

The low pressure gauge indicates when the pre-filters have to be changed or the through-hull becomes clogged (barnacles etc.).

Low pressure gauge (AISI 316 housing / Monel bourdon tube) -30 +60PSI, ¼"NPT thread in filter housing, 316SS bracket with cutout for gauge.

Fresh water flush kit - [Contact Us For Pricing.](#)

The fresh water flush kit enables you to store your watermaker for up to 10 days without the use of chemicals (biocide). The fresh water flush storage can be repeated every 10 days.

Kit contains: 1 Filter housing, 1 active carbon cartridge, 1 bracket (AISI 316SS), 8 screws, 1 shut off valve, 2 hose barb connectors, 1 Nylon nipple, 1 Nylon tee, 10 ft. braided hose, 5 hose clamps (AISI 316SS).

Custom DUPLEX Upgrade - [Contact Us For Pricing.](#)

DUPLEX 1.4462 (similar to 2205) is more costly and more difficult to form and machine but achieves almost twice the corrosion resistance of 316 stainless steel. DUPLEX has been successfully used for all high pressure fittings and pressure regulators of ECHOtec commercial desalination systems for the past 10 years. The custom Duplex upgrade is now available as an option for yacht watermakers.

The Duplex package comes with a **lifetime warranty** (If for any reason, a DUPLEX regulator or fitting **ever** fails, we replace it. Period).

Maintenance Kit - [Contact Us For Pricing.](#)

10 Pre-filters, 5 and/or 20 micron (2 1/2" x 10")

- 1 Spare sea strainer screen
 - 2 Active carbon filters (fresh water flush)
 - 1 Ltr. High-pressure pump oil
-

Extended Maintenance Kit - [Contact Us For Pricing.](#)

- 2 DC motor brushes
 - 1 Acid cleaning compound
 - 1 Alkaline cleaning compound
 - 2 Storage compounds (Biocide)
 - 1 Complete spare seal and O ring kit (except high pressure pump)
-

Consumables

- [5 / 20 micron pre-filter cartridge](#)
 - [5 / 20 micron pre-filter cartridge](#) 10 pcs.
 - Active carbon cartridge
 - pH neutralizer / mineral cartridge
 - Sea strainer screen
 - Membrane element 2 1/2" x 21"
 - Membrane element 2 1/2" x 40"
 - Biocide / Storage compound
 - Alkaline cleaner
 - Acid cleaner
 - DC motor brushes (pair)
 - Timing Belt
 - High Pressure Pump valve kit
 - High Pressure pump seal kit (Water and Oil)
 - [Contact Us For Pricing.](#)
